

AMENDED IN SENATE MARCH 11, 2015

SENATE BILL

No. 33

Introduced by Senator Hernandez

December 1, 2014

An act to amend Section 14009.5 of the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

SB 33, as amended, Hernandez. Medi-Cal: estate recovery.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions.

Existing federal law requires the state to seek adjustment or recovery from an individual's estate for specified medical assistance, including nursing facility services, home and community-based services, and related hospital and prescription drug services, if the individual was 55 years of age or older when he or she received the medical assistance. Existing federal law allows the state, at its own option, to seek recovery for any items or services covered under the state's Medicaid plan.

Existing state law, with certain exceptions, requires the department to claim against the estate of a decedent, or against any recipient of the property of that decedent by distribution or survival, an amount equal to the payments for Medi-Cal services received or the value of the property received by any recipient from the decedent by distribution or survival, whichever is less. Existing law provides for certain exemptions that restrict the department from filing a claim against a decedent's property, including when there is a surviving spouse during his or her

lifetime. Existing law requires the department, however, to make a claim upon the death of the surviving spouse, as prescribed. Existing law, which has been held invalid by existing case law, provides that the exemptions shall only apply to the proportionate share of the decedent's estate or property that passes to those recipients, by survival or distribution, who qualify for the exemptions.

This bill would instead require the department to make these claims only in specified circumstances for those health care services that the state is required to recover under federal law, and would define health care services for these purposes. *The bill would limit any claims against the estate of a decedent to only the real and personal property or other assets the state is required to seek recovery from under federal law.* The bill would delete the proportionate share provision and would delete the requirement that the department make a claim upon the death of the surviving spouse. The bill would also require the department to provide a current or former beneficiary, or his or her authorized representative, upon request and free of charge, with the total amount of Medi-Cal expenses that have been paid on his or her behalf that would be recoverable under these provisions, as specified. The bill would apply the changes made by these provisions only to individuals who die on or after January 1, 2016.
